Event Summary Report

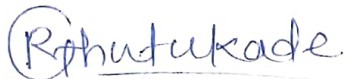

Name of Event: - Industry Invited talk on CATIA

Date of Events: - 28/06/2016

Location: - New Seminar Hall

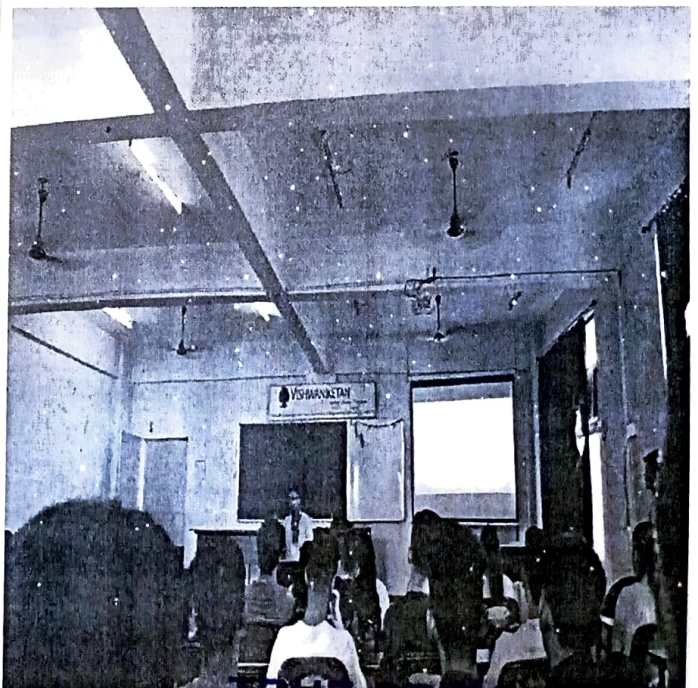

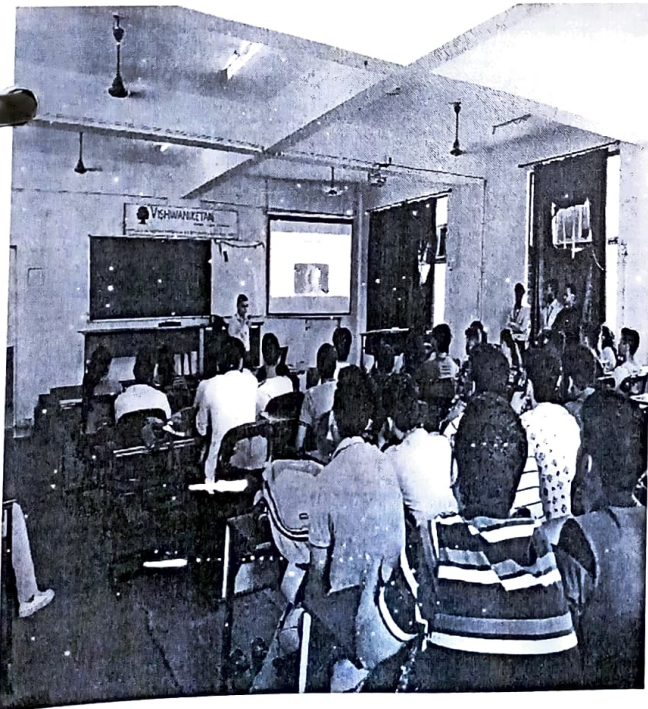

No. of Participants: - 95

Industry Invited talk on CATIA has been organized for SE and TE students of Mechanical Engineering Department on 28/06/2016. The speaker for the seminar was Mr. Bhushan Chougule. The main goal of this session was for users to be able to directly model Sheetmetal, build accurate solid weld geometry in both parts and assemblies, and reuse components using the intelligent mirror tool. Engineers can now use a 3D sweep to draw along 3D trajectories, giving them greater 3D design capability.

Event Summary Report

Name of Event: - Industry Invited talk on Advanced Creo

Date of Events: - 27/12/2016

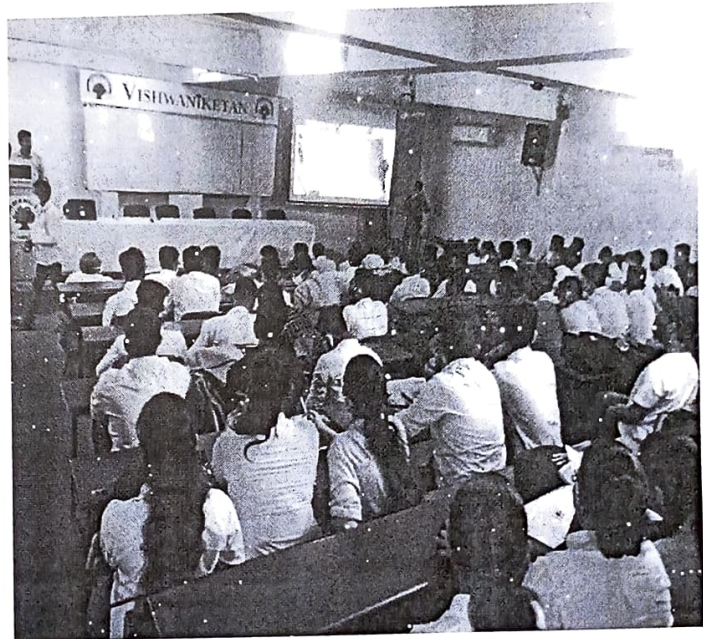

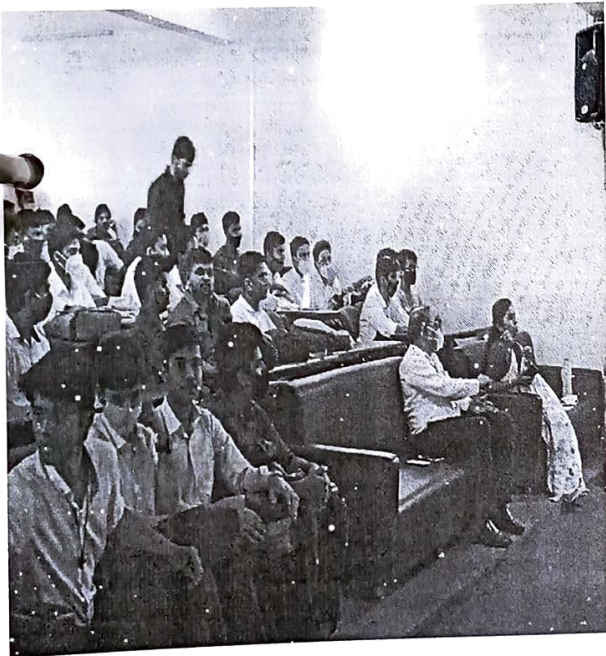

Location: - New Seminar Hall

No. of Participants: - 94

Industry Invited talk on Creo has been organized for SE and TE students of Mechanical Engineering Department on 27/12/2016. The speaker for the seminar was Mr. Bhushan Chougule. The main objective of this session was model Sheetmetal directly, build accurate solid weld geometry in both parts and assemblies and reuse components through the intelligent mirror tool. New capabilities also allow for greater 3D design ability; engineers can now use a 3D sweep to draw along 3D trajectories.

Event Summary Report

Name of Event: - Industry Invited talk on CATIA

Date of Events: - 15/06/2017

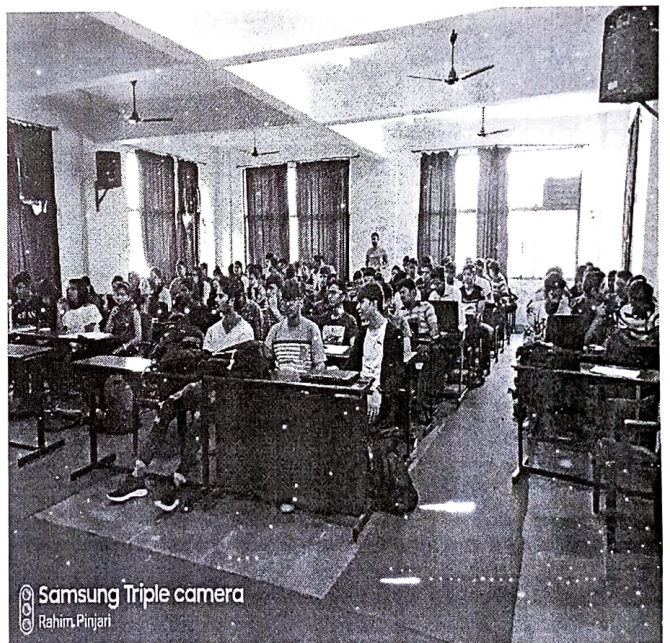

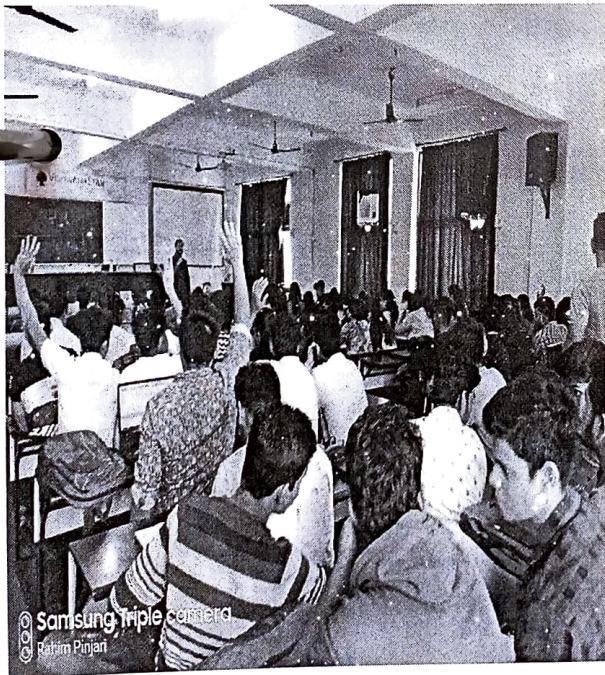

Location: - Old Seminar Hall

No. of Participants: - 78

Industry Invited talk on CATIA has been organized for SE and TE students of Mechanical Engineering Department on 15/06/2017. The speaker for the seminar was Mr. Bhushan Chougule. The main goal of this session was for users to be able to directly model Sheetmetal, build accurate solid weld geometry in both parts and assemblies, and reuse components using the intelligent mirror tool. Engineers can now use a 3D sweep to draw along 3D trajectories, giving them greater 3D design capability.

Event Summary Report

Name of Event: - Expert Lecture on Centrifugal Pumps

Date of Events: - 23/08/2017

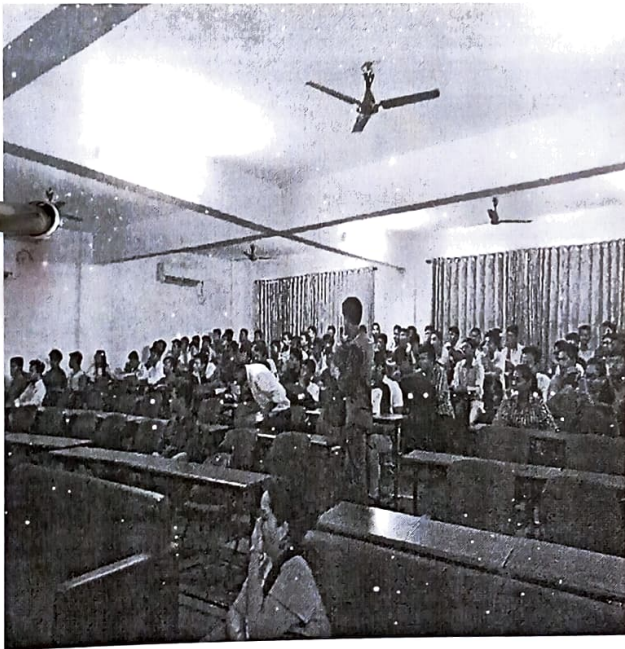

Location: - New Seminar Hall

No. of Participants: - 112

Expert Lecture on Centrifugal Pumps has been organized for TE students of Mechanical Engineering Department on 23/08/2017. The speaker for the seminar was Mr. Avijeet Shukla. The main objective of this session was Centrifugal pumps are used to transport fluids by the conversion of rotational kinetic energy to the hydrodynamic energy of the fluid flow. The rotational energy typically comes from an engine or electric motor. They are a sub-class of dynamic axisymmetric work-absorbing turbomachinery.

Event Summary Report

Name of Event: - Industry Invited talk on SOLIDWORKS

Date of Events: - 02/01/2018

Location: - New Seminar Hall

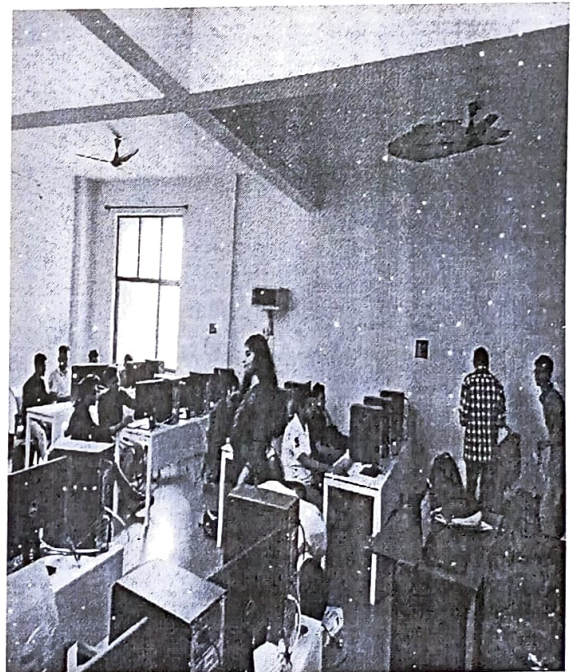

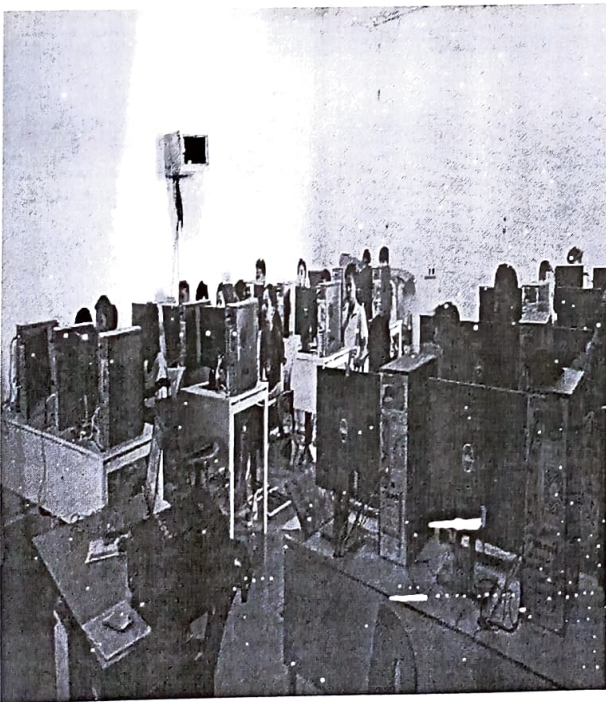

No. of Participants: - 56

Industry Invited talk on SOLIDWORKS has been organized for SE and TE students of Mechanical Engineering Department on 02/01/2018. The speaker for the seminar was Mr. Bhushan Chougule. The main goal of this session was to develop mechatronics systems from beginning to end. At the initial stage, the software is used for planning, visual ideation, modeling, feasibility assessment, prototyping, and project management. The software is then used for design and building of mechanical, electrical, and software elements.

Event Summary Report

Name of Event: - Industry Invited talk on advanced CATIA

Date of Events: - 11/06/2018

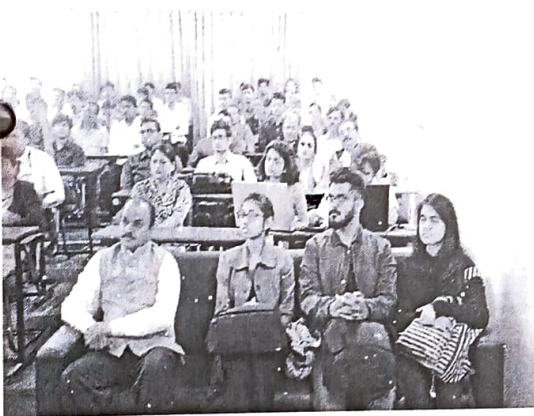

Location: - New Seminar Hall

No. of Participants: - 87

Industry Invited talk on advanced CATIA has been organized for SE and TE students of Mechanical Engineering Department on 11/06/2018. The speaker for the seminar was Mr. Bhushan Chougule. The main goal of this session was for users to be able to directly model Sheetmetal, build accurate solid weld geometry in both parts and assemblies, and reuse components using the intelligent mirror tool. Engineers can now use a 3D sweep to draw along 3D trajectories, giving them greater 3D design capability.

Location: - New Seminar Hall

No. of Participants: - 78

Industry Invited talk on CATIA has been organized for SE and TE students of Mechanical Engineering Department on 29/04/2019. The speaker for the seminar was Mr. Anand Bhise. The main goal of this session was for users to be able to directly model Sheetmetal, build accurate solid weld geometry in both parts and assemblies, and reuse components using the intelligent mirror tool. Engineers can now use a 3D sweep to draw along 3D trajectories, giving them greater 3D design capability.

Event Summary Report

Name of Event: - Design of Heat Exchanger Invited talk

Date of Events: - 13/09/2019

Location: - New Seminar Hall

No. of Participants: - 90

Design of Heat Exchanger Invited talk has been organized for SE and TE students of Mechanical Engineering Department on 13/09/2019. The speaker for the seminar was Mr. Iqbal Mujawar. From this session students learn the heat exchanger design is a thermal heat transfer device that exchanges (hence their name) the thermal energy from one source and transfers it to another at different temperatures. In most heat exchanger design, the fluids or gases used to transfer the heat are separated and do not mix.

Event Summary Report

Name of Event: - Industry Invited talk on Arduino

Date of Events: - 30/12/2019

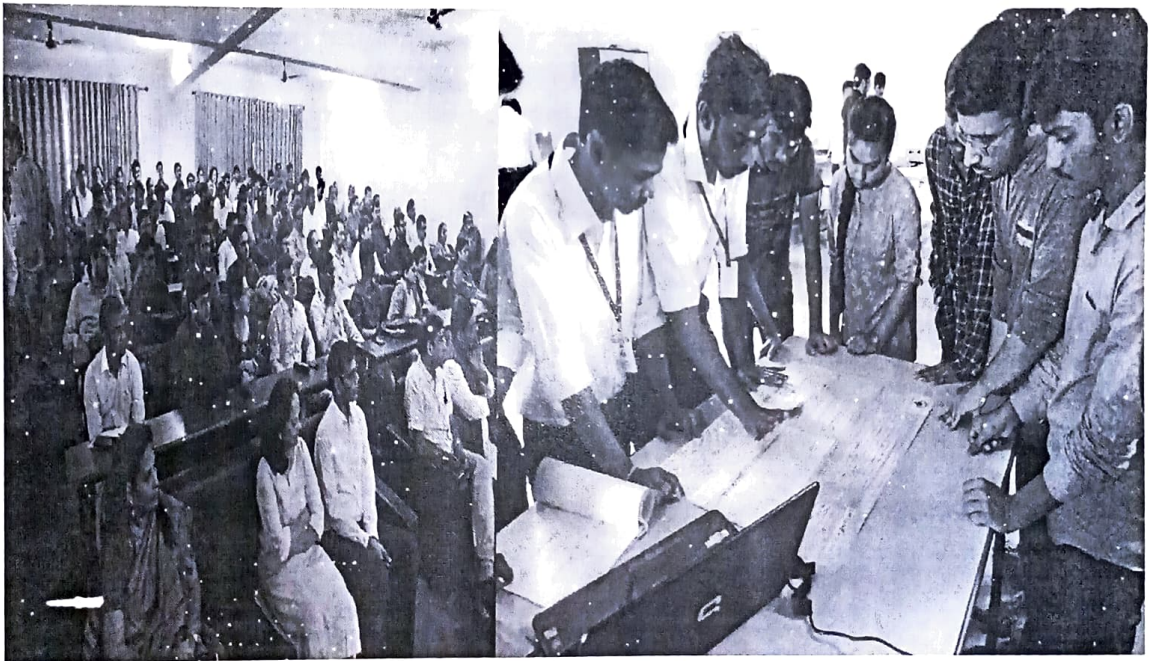

Location: - New Seminar Hall

No. of Participants: - 88

Industry Invited talk on Automobile has been organized for SE and TE students of Mechanical Engineering Department on 04/11/2019. The speaker for the seminar was Miss Shilpa Shinde. The main goal of this session was to create an accessible way for software developers to enter the world of microcontroller programming. Arduino is a microcontroller interface built around an Atmel AT mega processor, coupled with an integrated development environment (IDE) for creating logic on the chip.
