

ONE PAGE REPORT

Title of Event	: Hands on Training on Total Station and GIS
Guest Faculty	: Asst. Prof. Sheetal Varur
Organization	: Kolhapur Institute of Technology, Kolhapur
Audience	: SE Civil Engineering Students
Organized by	: Civil Engineering Department
Coordinator	: Mr. Dinesh M More & Mrs. Deepali Sunil Barad.
Date	: 10/4/2023 to 12/04/2023

.....

In this event students came to understand the concept on “Application of Total Station and GIS” in the field of civil engineering. In one of the first day of this training, initially students were taught the basics of the Total Station and its actual working. During this the students were also got the chance to interrogate with the trainer wherein they about to know the Importance and the necessity to adoption of this particular training programme. After completing the interaction session on the first half, students were moved in the field with respected trainer Asst. Prof Sheetal Varur sir along with his assistant.

On next two days students were allowed to participate in the groups and practice the so that they can have hands on experience on this Instrument along with software, in which different activities conducted as per ground conditions of surveying. Total 50 students has attended and successfully completed their training.
