Participants: Students of First Year, Div : A

Agenda:

- Sujal Kshirsagar

Case Study 1: Cloud Computing (Google Cloud Platform)

1. Maithili Gunjal
2. Amey Gaiwad
3. Pushkar Mandhare
4. Tejas More

Case Study 2: Internet of Things (Wipro)

1. Mrudula Madhavi
2. Aditya Jogavade
3. Veda Telavane
4. Akash Kunder

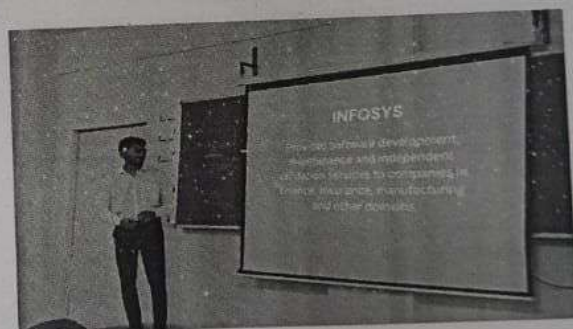

Business News:

- Sujal Kshirsagar

Technical Quiz:

- Yash Jogavade

Name of Guest: Prof. Shivani Agrawal

Business Club case study presented by Sujal Kshirsagar and Team.

Cloud computing is the on-demand availability of computer system resources, especially data storage and computing power, without direct active management by the user. Large clouds often have functions distributed over multiple locations, each of which is a data center. Google LLC is an American multinational technology company focusing on search engine technology, online advertising, cloud computing, computer software, quantum computing, e-commerce, artificial intelligence, and consumer electronics. Internet Of Things IOT (wipro) Internet of things describes physical objects with sensors, processing ability, software and other technologies that connect and exchange data with other devices and systems over the Internet or other communications networks. Wipro's capabilities range across cloud computing, cyber security, digital transformation, artificial intelligence, robotics, data analytics, and other technology consulting services to customers in 167 countries. Wipro Limited is an Indian multinational corporation that provides information technology, consulting and business process services.
