Event Summary

Name of event: Industry invited talk on CFD

Date of event: 14/10/2022

No. of participant: 72

Venue: C112

Department of Mechanical Engineering, ViMEET had organized one day expert talk on Applications of Computational Fluid Dynamics for Industry conducted by Ms. Vrushali Mukharji (Founder, Sandevin Analytics) on 14th October 2022. The objective of the event was to create awareness and create career opportunities in the field of Computational Fluid Dynamics for mechanical engineers. It included mechanics of fluid: liquid, plasmas and gasses and forces acting on them. Overview of Navier-Stroke equations that describe how pressure, velocity, density and temperature of a moving fluid are related.

Total 72 students from Mechanical department were present for the session. Students of third & final year found this session very helpful for placement, higher studies and other competitive examination.
