**Date of event:** 08<sup>th</sup> August 2022

**Time:** 03:00pm to 4:30pm

**No. of participant:** 30+

**Venue:** C112

Corporate teaching is a concept introduced to develop students' interest and enthusiasm for the subjects they are studying. It is not uncommon for students to be unaware of the use of a particular subject included in the curriculum. It is only for the purpose of getting good marks and eventually completing the degree that students learn this subject. A corporate teacher helps students understand the importance of a particular subject from an industry perspective. Therefore, these skills should be ingrained in them so that they can grab an industry job.

In this regard, Dr. Ajay Chandak a field scientist and an entrepreneur by profession was invited to deliver an expert talk on Renewable Energy Sources. On 8th August 2022 this event took place. Over 30 students attended the session.

Beginning with the basics of RES, Dr. Ajay correlated the topics included in the syllabus to their use in the industry. In his presentation, he discussed applications of RES. There was a great deal of value and encouragement for the students in this session.
