(May 2018)

C1- Training /QIP and faculty empowerment.

1. Faculty Development programs, STTP's etc. should conducted in the institute only with real spirit of skill development. The focus shall be on quality and measurable outcome, not the pregnancy .All such programs shall be organised with mind-set to give strength to PBL vision of Vishwaniketan.

2. With large number of collaboration abroad and the fact that Vishwaniketan was established to create a platform for India to research and practice PBL, Vishwaniketan will encourage faculty members to pursue their higher education in the partner universities abroad, as and when possible but not less than one teacher every year.

3. The investment for this Ph.D. study will divided equally between the institute and the faculty member for three years. The staff member will get the exposure, international connect and he should contribute to institutes growth in research outcome, research funding, projects, extension of collaboration and so on the teacher should be extremely useful to the student community in Vishwaniketan and India

4. Such teacher will sign a legal bond for minimum length of service with Vishwaniketan after completion of Ph.D. abroad.

5. Teachers will have opportunity to participate in VAP projects, Industry projects to enhance their skills for more usefulness to society selected teachers who have worked for minimum three years with Vishwaniketan will be offered an opportunity to visit partner universities abroad for 7 weeks or more to take exposure work on future technology projects in collaboration with the faculty abroad.

6. Staff members shall be encouraged to write technical papers, File patents and participate in events useful for such outcomes, organised by reputed institutions in and out of the country. The re-embarrassment of expenses for such events in India will sponsored as per the guidelines drafted by the academic monitoring committee, approval by the principal.

7. It is expected that empowerment of teachers will occur by correct utilisation of such opportunities for attainment of their usefulness to society .Teachers will be encouraged to work on consultancy work and 85% of such IRG will be distributed to the terms as defined separately.

8. Teachers with long term carrier growth plans should participate in these activities after they have clearly understood that the empowerment is function of respect earned out of the work one carries, usefulness to society/ students and industry and 'request for one increment 'psychology is not good for wellbeing of teaching community.

VISHWANIKETAN'S STRATEGIC PLAN

9. If a teacher, after going through all such experiences and professeciency achieved ,can seek permission in writing to work in industry two days aweek.one day on duty and second is his weekly holiday. Such permissions will be given in the view to improve linkage with industry for joint student projects consultancy and may be CSR.

This will give rightful branding to Vishwaniketan for quality of admission.

Report on Active Learning Pedagogy

Date: 19th August, 2023
Speaker: Dr Prafulla Hatte
Venue: SLS Room, ViMEET, Khalapur

Department of Computer Engineering and Department of Computer Science & Engineering (AIML) has organized Active Learning Pedagogy Workshop on 19th August 2023.

The session started at 09:30 a.m. in the SLS Room by Dr. Prafulla Hatte. He is a Mechanical Engineer and presently working as a Dean Research & Development with MIT Academy of Engineering, Pune. He has 8 years of industry and 21+ years of teaching experience. He has also worked as a consultant for MAN Trucks Pithampur, Force Motors Pune, L&T, Mahindra & Mahindra Nagpur, BHEL Bhopal etc.

He is certified as an "International Teacher & Trainer" by Cambridge University, UK. He has also worked as a Corporate Trainer for various industries like Wipro Technologies Bengaluru, JCB India Ltd Pune, Winjoy Technologies Pune, KVIC Nashik etc.

Dr. Prafulla has conducted more than 100 training sessions for Engineering faculty members across India.

Active learning is crucial because it engages learners directly in the learning process, promoting deeper understanding, critical thinking, and retention of information. It encourages participation, collaboration, and problem-solving, ultimately leading to more effective learning outcomes.

Around 40 Faculty from various field & streams have attended the workshop.
